MN FAASTeam presents:

IMC Club Meeting - Mastering the Art of Instrument Flying

EAA/IMC Club, through the EAA's global Chapter structure, provides Scenario Based "hangar flying" focused on building instrument flying knowledge and skills. The program's network promotes a safety culture through continued education and believes that we develop safety and proficiency through education and real life experience. Monthly meetings offer an opportunity to share in-flight experiences and valuable safety tips. Through the FAA Safety Program, aviation professionals provide informative WINGS presentations. You do not have to be an instrument rated pilot to attend. Membership in theEAA/IMC Club is encouraged but not required to participate in thismeeting. For more information and to take part in this event, click the link below and register TODAY!

Directions: As you enter the airport from the southwest gate, turn right on Airport Road. With the fence on the right, follow Airport Road to the left, then to the right. Look for the EAA hangar on the left, turn into parking lot. When flying in, park on the South ramp by the Golden Wings Museum.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
