

To all Pilots flying in the area of the Los Altos Rod and Gun Club:

The Los Altos Rod and Gun Club is located in Los Gatos, Ca. in the Santa Cruz Mountains (see location below) at an elevation of approximately 2800 MSL. Be aware of the hazards a live firing range presents to aircraft. Flight within 500 feet of the club presents potential small arms hazards to the aircraft flying over the gun club.

Due to low over flights of the gun club recently, the FAA is monitoring flights in the area.

Please choose a course and altitude which will not present a potential hazard for your aircraft when flying near the Los Altos Rod and Gun Club.
