

SAFE Pilot Proficiency Project

Poor energy management is a major contributing factor in fatal accidents and is also responsible for wasted fuel. This presentation raises awareness of the need for basic energy training, lays the groundwork for key energy principles, and suggests some ways to put these principles into practice.

Directions: From I-95 take Exit 9. Travel East on West New Haven Ave. Turn left on Evans Road. Turn right on West Nasa Boulevard. The facility is on the left at Grumman Lane.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
