

National FAA Safety Team presents:

SUN n FUN 2023 Forum - Find Your Vertical Aviation Mission

Is it YOUR mission to make a difference? Then pursue a career in vertical aviation! With safety always in mind, our pilots and maintenance technicians perform the work that keeps the world working. Why drive an airborne bus route when you can put out fires, speed accident victims to medical care, or maintain our electrical grid. Come learn about the opportunities that await you just a few hundred feet off the ground, where we don't just fly — we safely fly missions! There are outstanding employment opportunities currently available in vertical lift aviation. Opportunities are available for pilots and maintenance personnel, and neither require a college degree. The rotorcraft industry is the gateway to future Advanced Air Mobility (AAM) operations. Most helicopter flights are mission-specific, allowing pilots to choose from a vast variety of career opportunities. As in all of aviation, safety is vital at every stage of planning and operation.

Directions: The FAA's "Orlando Field Office" (aka FAA Safety Center) is centrally located on the Sun-n-Fun grounds at the corner of Laird Drive and Sun-n-Fun Road. We are the large building with the rooftop deck. Forums entrance is on the west side of the building.

Prior to attending a safety seminar, please review and abide by current CDC, State and local health guidelines.
