

National FAA Safety Team presents:

# **AirVenture 2023 Forum - Loss of Control Based on Illusions**

Despite VFR and clear skies, the fact remains that competent pilots still fly perfectly good airplanes into the ground. In an effort to explain, understand and thereby avoid what happens in this situation, the topic of medical aspects of Flight Illusion and the role they play in landings where the plane can NOT be used again is explained in an entertaining but worthwhile way. WINGS/AMT credit available!

To receive WINGS/AMT credit fill out attendance sheet available at the Forum entrance.

**Directions:** The FAA Safety Center is centrally located on the EAA AirVenture grounds on the South side of the control tower. We are the large tan building with the rooftop deck facing the runway. Forums entrance is on the west side of the building.

Prior to attending a safety seminar, please review and abide by current CDC, State and local health guidelines.

### **A message from the National FAASafety Team Manager**

Earn your WINGS to get a chance to win a prize. Go to <https://www.wingsindustry.com/WINGS-Sweepstakes> for more info.
