

AirVenture 2024 Seaplane Base Forum - Interpretation and Application of Graphical Forecasts

Event Details

FAA Policy acknowledges that government sponsored sources are not the only compliant means for obtaining weather and encourages pilots to use self-briefing services. With almost limitless amounts of information, how do we "comply" with our obligation to "...become familiar with all available information..." which includes "...weather reports and forecasts..." and teach learners adequate self-briefing procedures?

WINGS/AMT credit available!

To receive WINGS/AMT credit fill out attendance sheet available at the Forum entrance.
