

Weather Interpolation and Representativeness

This session discusses the differences between weather accuracy and representativeness, and a review of incidents and misconceptions. Tips for determining the representativeness of weather information and FAA research to develop decision support tools to assist pilots with this challenge will be presented. The session will also discuss risks associated with interpolating weather conditions when proximate sensors provide disparate information.

WINGS/AMT credit available!

To receive WINGS credit fill out attendance sheet available at the Forum entrance.

The **Central Florida Aerospace Academy** is located near the West entrance of the Sun-n-Fun grounds off of Medulla Road, through the main gate #134 onto the James C Ray Drive. Building across from Museum.

From admission gates, turn left down James C Ray Drive towards CFAA, blue roofed building on left,
