

AirVenture 2026 - I Can Do This

Weather related accidents continue to result in the highest number of general aviation fatalities annually. Pilot attitude (i.e., overconfidence or I-can-do attitude) has been identified as a causal or contributing factor. This session will review weather-related accidents where the I-can-do attitude was evident and resulted in a negative outcome. Additionally, we will discuss how to prevent yourself from becoming a victim of this fairly common behavior.

WINGS credit available!

To receive WINGS credit fill out attendance sheet available at the Forum entrance.

EAA Forum Stage 8 Sponsored by GAMA

A message from the National FAASTeam Manager
