Select #: AL0144616  
FPM ROBERT WESNER

Critical information for all General Aviation Pilots who may fly close to or within the Air Tourism Sight Seeing Routes in Fairbanks this summer. Routes, frequency of flights, normal operating altitudes, and the importance of communications and frequencies used. Also, standardized terminology. Position reporting and weather factors while flying within the Air Tour Route Structure.

**Directions:** The Seminar will be held in room 201 upstairs at the extreme northeast end of the building. Parking is in the lot closest to the north end of the building, marked as the University of Alaska Fairbanks Community and Technical College. Enter building at the east end of the parking lot, then proceed up the stairs at your left and then left to end of hallway, the classroom will be on your right.

### **A message from the National FAASafety Manager**

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?
