

FAA Safety Team presents:

Pilot Safety Meeting - 6:30 - 9:00pm

A safe flight begins and ends on the ramp. With proper planning, understanding and communications, you can enjoy your flight much more!

Runway Safety will provide information on avoiding pilot deviations and other ground occurrences and answer questions on how to operate safely at the airport.

Fairbanks Tower Air Traffic Controllers will speak on local operating procedures and communications in the Fairbanks area. This open forum will provide opportunity to get clarification on those confusing clearances.

Flight Service Station will talk about evolving Pilot Reports, eSRS, and the Fairbanks Pilot Bulletin, which has a lot of information specific to operations in the FAI area.

Bring your questions for any of these speakers. Together we can create a safer flying environment for everyone to enjoy!

Directions: East Ramp of Fairbanks Airport
