

FAASTeam presents:

Super Cub and small aircraft maintenance issues and paperwork

The Fairbanks FAA Safety Team in conjunction with the Anchorage Aircraft Certification Office will be hosting a safety seminar to discuss aircraft maintenance and related paperwork issues concerning Super Cubs and other small aircraft. This seminar was created to clear up any perceived misunderstanding of what type of parts can and cannot be installed on a type certificated aircraft and what paperwork is needed to be completed.

The following topics will be covered and discussed: FAR 43.9 and 43.11 logbook entries Supplemental type certificates Suspected unapproved parts CAR 3, CAR 4 and CAR 4a aircraft The process of installing accessories or parts on aircraft that are not certificated (Propellers)

Directions: The meeting will be held in the Newly renovated Fairbanks Airport Emergency Operations Center located on the SW corner of the airport off of Airport Industrial Road. The meeting will be held in the main conference room of the FAI Airport Operations Center.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
