

FAIRBANKS FSDO AND UAF/TVC STATE WIDE IA SEMINAR

March 27, 2009

Fairbanks Flight Standards District Office (FSDO-01) and the UAF Aviation Department located on the Tanana Valley campus are thrilled to announce an electrifying new format for 2009's IA Seminar. We are co-sponsoring a statewide simulcast of the Fairbanks FSDO IA Seminar. Through this sponsorship and with the cooperation of all Alaska University campuses we are able to simulcast presentations from seven different locations within the State of Alaska, with one presenter coming to us live from the Massachusetts Institute of Technology (MIT) in Boston, MA. Instate locations are listed in the attached schedule of events.

Registration begins at 07:00am with opening comments by the Alaskan Region District Manager, at 07:30am. First presentation begins at 08:00am. All IA's wishing to renew must complete Form 8610-1 showing the requirements of 14 CFR 65.93 have been met. One Form for 2007 and 2008 will suffice. You must attend all lectures to receive the seminar certificate verifying your attendance at this 8-hour renewal presentation.

Using this interactive presentation enables you to ask questions of the presenters and receive immediate answers from any location. Coordination with all 3 FSDO's; Fairbanks, Juneau, and Anchorage and our Regional Office will allow FAA Inspectors on scene to monitor and answer questions.

We are excited to offer this Seminar for the convenience of IA's who wish to enhance professionalism or actually need this presentation to complete their renewal requirements. This delivery technique allows us to bring a unique learning opportunity to industry professionals who would otherwise travel to Fairbanks, Anchorage or Juneau. Pass the word; let all Airmen know: IA's, A&P's, DER's, DAR's, DME's, aircraft owners, and pilots, they are welcome to participate.
