

2012 Fall Safety Seminar

Learn about winter flying topics including static electricity and proper fueling techniques, the Alaska Experimental Forecast Facility and winter weather, what happens after your ELT is activated and why you need to know the difference, how to avoid low level accidents and new safety equipment. Come hear Don Lee of NatGeo's "Alaska Wing Men" and Alaska Floats and Skis talk about ski flying and his experiences during his 35 years of flying Alaska.

Directions: The UAA Aviation Complex is the largest building on Merrill Field and is located at the east end of the airport. This seminar will be held in the first floor auditorium. Look for informational signs inside the main entrance.

A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
