

FAASTeam presents:

2013 Safety Stand Down

This year's agenda will cover the following subjects

FAA Information - This will be a session with information on host FSDO GA services and oversight, contact and appointment information, and any FSDO concerns with respect to GA.

Introduction to Human Error – An introduction to human error, discussion of mental biases that lead to errors and recommendations for detection and mitigation of errors before they lead to accidents.

Loss of Control Panel Discussion – Moderated by the NTSB, the panel will consist of respected members of the local aviation community this element will discuss 3 loss of control scenarios. A introduction of each scenario will be provided.

And in addition there will be presentations on Runway safety and the use of Angle of Attack Indicators.

Directions: Located at the East end of Merrill Field inside the Aviation Technology Building.
