

Annual Anchorage FSDO DPE meeting inviting all CFIs.

Date: Friday May 3, 2013

Location: Anchorage Flight Standards large conference room located at 300 West 36th Ave. Suite 101.

Time: 8:00 AM – 1:00 PM

Subjects to be covered during the annual Anchorage FSDO DPE meeting inviting all CFIs.

1. State of the Helicopter industry and Safety initiatives by Stan Rose from the Helicopter Association International (HAI). (40)
2. Stall Spin Awareness by Chris Shaver from the NTSB. (40)
3. Special Emphasis Area changes. Aeronautical Decision Making (ADM) now includes risk management. The FFASTEAM web site, www.faasafety.gov has a risk management section in the course, Aeronautical Decision Making. The course is rather lengthily but well worth the time for covering ADM and risk management for pilots. Dee Rice from Flight Standards District Office and Mike York from the FFASTeam. (20)
4. How Sea Plane water elements are being taught and tested. Dean Eichholz. (30)
5. 44709 Reexamination review by C.C. Bales and Bill Missal from Regional Flight Standards. (30)
6. eSARS Augmenting your Satellite/DPS Tracking devices into Flight Plans presented by Marshall Severson from Flight Service. (30)
7. Areas to improve instruction safety that are critical to a successful outcome of Pilot training and testing. Open discussion focused on deficiencies in training that are showing up during examination. (20)
8. Review of Airmen Correction Notices and IACRA difficulties presented by Dee Rice with CFI and DPE input. (20)
9. Regional issues, if applicable, such as policy changes, changes in processes and areas of emphasis related to designees. The requirement of DPE annual renewal test to be recorded on FAA Form 8710-1 and N8900.204 will be discussed during this segment. N8900.204 address the need for International pilot certificate applicants to meet English language proficiency requirements. Presented by Dee Rice from the Flight Standards District Office. (20)
