

Note Time Change 6:30PM CFI Open Forum - Pilots and Mechanics

Take a look into the Airframes Alaska manufacturing facility and see how they build safe and strong airframes and parts. Alaskan Bushwheels is next door and you can see how there manufactured and learn some tips on how to best take care of your tires. Steve Williams, from ACME CUB has just installed an Angle of Attack System (AOA) in his Cub and has information on how the device provides instantaneous readouts on angle of attack.

Directions: Airframes Alaska/Alaskan Bushwheels are located on the West Side of the Airport.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
