

## Bethel Alaska Runway Safety Meeting

As a participant of the advisory team, you will review airfield and terminal airspace operations and discuss development of a risk mitigation plan to avoid runway incursions. This workshop will be used as a forum to receive suggestions for better airfield design and operational procedures, as well as provide the FAA a chance to brief on continuing system developments across the country being instituted to improve aviation safety.

**Directions:** Alaska Airlines Cargo bldg. upstairs meeting room

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
