

General Aviation Safety in Alaska and Nationwide (Sunday May 3rd)

General Aviation safety has drastically improved over the last 35 years. The last five years have set new records as we suffer fewer accidents while flying more than ever. Mike Ginter, Senior Vice President of the AOPA Air Safety Institute, will present the latest on safety stats in Alaska and nationwide. The Air Safety Institute has been driving the GA accident rate down for over 75 years, but we have more work to do.

This event is located on the Alaska State Fairgrounds, Palmer AK. This seminar is located in the Hoskins Exhibits Hall, marked as building #17 on the attached fairgrounds map. It is a light green building with white trim.

This seminar is scheduled for 1400 - 1450 and will earn attendees 1 hr of Advanced Risk Management WINGS credit.

A message from the National FAASafety Team Manager
