February 13, 2015

Juneau International Airport (JNU) Community,

Surface Events - runway incursions, runway excursions, and surface incidents - remain a serious concern nationally. One important component of our ongoing efforts to improve surface safety at JNU involves conducting a Runway Safety Action Team (RSAT) meeting at least once each fiscal year. In conjunction with JNU Airport management, we will be conducting a combined RSAT and runway rehabilitation pre project meeting on March 24, 2015. The meeting is scheduled from 0800 until 1630 at the Juneau International Airport in the Alaska Room.

The purpose of the RSAT meeting is to unite those individuals and organizations that are actively involved in air traffic operations and movement of aircraft, vehicles and equipment on the Airport Operations Area (AOA).

This year is unique at JNU due to the major construction project whereby the runway will be completely revamped. April 1st is the target date when Taxiway Alpha will reopen as temporary Runway 8/26. 'Uncontrolled' Taxiway Hotel will get a 'face-lift', extending from Taxiway Bravo One to Taxiway Echo One and it will become a movement area - a controlled surface where communication with ATCT is required whenever, the tower is open.

The construction will have a major impact on surface movement for pilots as well as vehicles. We look for participation from all major airport interests including GA and commercial users, tenants, fixed base operators, airport operations and maintenance personnel, NATCA, and multiple FAA lines of businesses. Participants are asked to help develop recommendations and solutions to enhance surface safety during this construction season, and beyond. Those recommendations serve as the foundation for a site-specific Runway Safety Action Plan. You are cordially invited to join us.

Your active participation is important, needed, and welcomed. Please RSVP to Clarissa Conley, JNU ATCT Manager at: clarissa.conley@faa.gov. Include the name, organization, phone number and email address of those who will be attending.

If you have questions or need more information, please let me know. I can be reached at 907-586-7411.

Sincerely,

Clarissa Conley
