Every year takeoffs and landings account for more than half of all pilot-related accidents, and it's not just new pilots who are having trouble. We will be discussing takeoffs, the elusive 180 degree turn back to the runway after an engine failure, approaches to the airport and landings.

Directions: Exec 1 is at the Ankeny Regional Airport. See FAASafety.gov for more information and to register for this event! The Wings program is located on-line at FAASafety.gov/register, fill out your pilot profile and begin today! AMT on-line is coming soon!

*Message from the National FAAS*Team* Manager:*
Start FAAS*Team* CFI Workshops any time! Find Workshop #3 in SPANS.
