

FAASTeam presents:

# **Western Iowa/Eastern Nebraska Quarterly FAAST Seminar and CFI-DPE Forum**

Seminar will start with FAAST presentations--discussing "Over-reliance on Automation" and "Startle-Response"--then transitions to a discussion amongst student pilots, local pilots, CFIs, and local DPEs regarding training and checkride topics. All pilots are welcome to attend and participate in both sessions.

This FAAST seminar and CFI-DPE Forum meets the local quarterly requirement for FAAST events at the Council Bluffs Municipal Airport. It is open to all interested regional pilots, particularly those in western Iowa and eastern Nebraska. Council Bluffs Airport is a full service airport, so fly-in participation is encouraged.

**Directions:** Event will be held at Council Bluffs Municipal Airport FBO in the upstairs conference room. Directions to the airport are thus: I-80 east, exit 8, thence east on U.S. 6, thence follow airport signs.

#### **A message from the National FAASTeam Manager**
