

Using and Teaching Tablets and iPads Aloft presented by the GSLFIA

Using tablets as you fly involves rules and techniques that are different than paper charts and plates. Tom Russell has been an expert on this topic and he has an update!

Directions: Creve Coeur Airport is reached from Maryland Heights Expressway. Travel southbound from I-70 (Earth City South Exit), or northbound from I-364. Turn westbound on Creve Coeur Mill Road (note: from that intersection, some mapping software may call this Creve Coeur Airport Road).

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
