

FAASTeam presents:

NAFI MentorLIVE - First Solo to 787 Captain

With the current demand for pilots, the advantage may seem to be in favor of the applicant. But advancing to your ultimate goal might be more of a challenge than it initially appears. During this presentation we will take a look at one aviator's journey from his first solo to captain and beyond! Studying the successes and failures of those who experienced their ultimate aviation career goals, will provide additional insight for your goals on: best safety practices, learning from failures and mistakes, obtaining the knowledge and proficiency required to advance to the highest levels, the advantage of networking and an ongoing passion to learn more.
