

FAASTeam presents:

# **Ditching / Water Survival / Staying Alive for Rescue**

How do you plan your flight so you won't have to ditch? And how do you stay alive and get rescued if you do? This is important information for all pilots who fly over water.

Topics covered will include:

- Planning To Prevent Trouble – Preventative SAR (Search And Rescue)
- What To Do If Things Go Very Wrong – Ditching Technique
- How To Call For Help – Signaling
- How To Stay Alive Until Help Comes – Water Survival
- Stuff To Use To Help Stay Alive – Equipment
- Why You May Need A New ELT – Is anyone listening to your old one?
- Make the Switch to 406 – Your best chance of being located when you are in trouble.

**Directions:** ENCORE EVENT AVAILABLE NOW - Recorded LIVE from the FAA Safety Center in Oshkosh Wisconsin during AirVenture 2018

To access this FAA Safety Center Broadcast - [CLICK HERE](#) REGISTRATION IS NOT REQUIRED to view this presentation.
