

FAASTeam presents:

# **American Bonanza Society - A Pilots Gotta Know ---**

There's a tremendous amount of operational information in the Pilot's Operating Handbook, an Airplane Flight Manual, old-style Airplane Owner's Manuals, and even maintenance manuals. But how much of it is mandatory, and how much is just a recommendation? A pilot's gotta know his or her limitations. In this webinar you'll learn which apply to your airplane, and why.

Topics we'll cover include:

- FAA Approved POH and Airplane Flight Manual vs. FAA "accepted" data
- Inoperative equipment and the KOEL
- Limitations for optional and aftermarket equipment
- Limitations from Airworthiness Directives
- Instructions for Continued Airworthiness

Viewers will be able to type in their questions to be answered during the live event. We'll explain how to do so at the beginning of the webinar.

Although this American Bonanza Society program is oriented toward pilots of Beech Aircraft, the discussion, techniques and procedures described are valuable to the pilot of any airplane.

## Event Details

**Tue, Jan 14, 2020 - 19:00 CST**
