

**FAASTeam presents:**

# **NAFI - FAA Enhancing Winter Weather Training**

This presentation strives to enhance teaching strategies with the goal of reducing the number of accidents and incidents related to adverse winter weather. Using winter weather scenarios, participants will learn the gaps in pilot weather knowledge and their interpretation and use of weather information. In addition, the scenarios will highlight the availability of winter-weather training materials funded by the FAA. Ultimately participants will be more knowledgeable on specific winter weather topics to stress when teaching their students, will learn about new materials to enhance the teaching of winter weather phenomena, winter weather products/information, and hazardous weather avoidance decision-making.
