

FAASTeam presents:

ABS - BasicMed and Aeromedical Questions and Answers

Dr. Fred Furgang, an FAA Aviation Medical Examiner, active flight instructor and Beechcraft Pilot Proficiency Program CFI, reviews how BasicMed works, who can fly under BasicMed and under what circumstances, and what medical conditions do and do not permit operation under BasicMed. He then will answer viewer questions about BasicMed and fitness for flight.

Topics we'll cover include: How and why BasicMed came to be Who can fly under BasicMed, and in what types of aircraft and operation Which medical requirements exist to qualify for BasicMed, and to maintain BasicMed certification What existing or new medical conditions do not permit BasicMed certification Your questions about aviation medicals and human factors

Viewers will be able to type in their questions to be answered during the event. We'll explain how to do so at the beginning of the webinar.

Although this American Bonanza Society program is oriented toward pilots of Beech Bonanzas, Debonairs, Barons and Travel Airs, the discussion, techniques and procedures described are valuable to the pilot of any airplane.
