

FAASTeam presents:

# **FAA Safety Briefing LIVE! - September / October 2021 Issue**

This presentation introduces and discusses content in the September / October 2021 issue of the FAA Safety Briefing magazine. This issue focuses on airports and airspace, which are integral parts of the National Airspace System (NAS) infrastructure. Articles in this issue explore the value of our nation's vast array of public use airports and their importance to the communities they serve. We also highlight some critical "rules of the sky," explore nearly a century of evolution in the NAS and review some best practices for communicating with air traffic control. From Shrimp Boats to Satellites - Evolution of the National Airspace System(Don't) Drop the Mic! - Sound Like a Pro on the Radio (and take our quiz!)Advantages of Adventuring - Using Airport Visits to Advance Skills (and Stories)Mission Possible - Advocating for General Aviation in the TFR ProcessPaving the Way Forward - Airport Grants Provide for Safety & InfrastructureMaking it Count - Aircraft Transponder Signals Take Guesswork Out of Counting

NOTE: While many of the ideas covered in the quiz are included in the presentation, you may need to download a copy of the magazine from: [https://www.faa.gov/news/safety\\_briefing/](https://www.faa.gov/news/safety_briefing/) to complete this course.
