

FAASTeam presents:

# **NAFI - Understanding Stalls and Spins with Brian Schiff**

“What causes the airplane to spin?” Many high-time professional pilots and flight instructor applicants typically answer, “One wing is stalled more than another.” While that’s a great answer, how do we stall one wing more than another? The response usually includes a blank stare. Mark King and Brian Schiff will answer this question and address the myths, tales, and untruths regarding stalls and spins.

**Directions:** To access this NAFI MentorLIVE! Broadcast - CLICK HERE NO ADDITIONAL DOWNLOADS REQUIRED - just click on the webpage link above to view the program. **UNABLE TO ATTEND THE LIVE BROADCAST?** You may access the ARCHIVED program at any time after the LIVE Broadcast via the link above on virtually any internet connected device. **WINGS CREDIT** is earned immediately after passing the knowledge quiz on the FAA Safety website. A link to the **FAASafety Site WINGS Course** is available in the “posts” on the right side of the linked page noted above. **NEW! 2-Steps to WINGS Quiz Process**
