

FAASTeam presents:

WIN Insights - National Association of Flight Instructors

"Safer Pilots Through Excellence in Flight Instruction"

Presented by Karen Kalishek, NAFI Board Chair,
and Paul Preidecker, NAFI President

CFIs are a constant presence in the life of pilots, from the first flight lesson, through advanced training and flight reviews. Flight instructors are therefore vital to promoting aviation safety and continuous learning.

Join us to learn about resources available to support flight instructors and all pilots in their development as aviators and professional educators. The FAASTeam WINGS Pilot Proficiency Program is an important component of aviation training to promote proficiency and ongoing education as principal means to increase aviation safety.

This LIVE event will answer questions and provide information to help pilots and CFIs commit to further development of their aviation and instructional skills.

The WINGS Industry Network "Insights" programs highlight the work of General Aviation organizations to promote "Safer Skies Though Education" using the FAA Pilot Proficiency Program WINGS program
