

FAASTeam presents:

NAFI - Understanding Slips and Skids

Brian Schiff and Mark King's previous MentorLIVE presentation, "Understanding Stalls and Spins" planted the seed for this new presentation "Understanding Slips and Skids" Join Mark and Brian as they discuss; Cross controlled: what does that really mean? Skidded turns: what really happens and how do we avoid them? When can a slip be a life-saving maneuver? I've stalled in a slip: "What now?" Can we turn in a slip? How can I control speed in a slip? What's different between a forward slip and a side slip? What about slipping with flaps?

Access the previous MentorLIVE program "Understanding Stalls and Spins" [HERE](#)

Directions: To REGISTER for and ACCESS this NAFI MentorLIVE! Broadcast - [CLICK HERE](#) UNABLE TO ATTEND THE LIVE BROADCAST? You may access the ARCHIVED program at any time after the LIVE Broadcast via the link above on virtually any internet connected device. WINGS CREDIT is earned immediately after passing the knowledge quiz on the FAA Safety website via 2-Step EZ-WINGS process. The link to the FAA WINGS Course Quiz is in a "post" on the right side of the linked page noted above.
