

FAASTeam presents:

ABS - Single Pilot IFR / Fly Like A Pro

A trained and practicing air crash accident investigator, as well as a practicing flight instructor in high performance aircraft used extensively for single-pilot IFR (SPIFR), Jeff Edwards reviews case studies to reveal techniques for flying SPIFR safely.

Topics include:

- Currency, recency and proficiency
- Preflight weather planning
- IFR flight execution and risk management
- Answers to live viewer questions

Viewers will be able to type in their questions to be answered during the event. We'll explain how to do so at the beginning of the webinar. This program is recognized for ABS AVIATOR and FAA WINGS credit.

Although this American Bonanza Society program is oriented toward pilots of Beech Bonanzas, Debonairs, Barons and Travel Airs, the discussion, techniques and procedures described are valuable to the pilot of any airplane.
