

FAASTeam presents:

NAFI - Caution Helicopter Wake Turbulence - Not Something You Hear Near Enough

“Caution Helicopter Wake Turbulence:” This is something you either have never heard or very seldom. Several accidents have occurred as a result of helicopter wake turbulence to fixed wing aircraft. This session will explore the impact of helicopter wake turbulence on fixed wing aircraft both in the VFR environment and the IFR environment.

Directions: To REGISTER for and ACCESS this NAFI MentorLIVE! Broadcast - CLICK HERE **UNABLE TO ATTEND THE LIVE BROADCAST?** You may access the ARCHIVED program at any time after the LIVE Broadcast via the link above on virtually any internet connected device. **WINGS CREDIT** is earned immediately after passing the knowledge quiz on the FAA Safety website via a 2-Step process. The link to the FAA WINGS Course Quiz is in a "post" on the right side of the linked page noted above. A few Chrome users experience a problem trying to access the registration for this program. Chrome recommends first to try another browser in their "Troubleshooting Chrome" instructions.

A message from the National FAASafety Team Manager

Earn your WINGS to get a chance to win a prize. Go to www.wingsindustry.net for more info.
