Lead Representative JOHN
ANTHONY TEIPEN n/a

Most pilots think they know everything about turning an airplane, but many tragic accidents show that they don't. There's more to turning than meets the eye.

This episode of ***The Schiff Show*** will break down the key aerodynamics of turning flight—lift, load factor, bank angle, and airspeed—giving you the tools to understand and manage turns confidently. What you don't know about turning can be dangerous!

Our show follows a format to review a variety of factors including,

- Accident Review
- Regulatory Review
- Training Topic
- Technology Tips and Tricks
- Knowledge and Trivia Questions

The Schiff Show promises to be an hour well spent, which will fly by while you have fun and learn to be a safer pilot.

Registration is not required. After viewing the program, WINGS Credit is earned immediately upon successful completion of a short quiz. The link to that quiz is on the page noted below.
