

The Schiff Show - Wake Turbulence A Silent Killer - What You Can Not See Might Hurt You

Event Details

During this episode of THE SCHIFF SHOW, your monthly destination for in-depth aviation safety discussions and expert insights, we will dive into a rare but critical topic: wake turbulence, and in particular, helicopter wake turbulence, and its contribution to a catastrophic accident.

Whether you fly airplanes or helicopters, work in air traffic control, or want to deepen your understanding of this invisible monster, this session will provide knowledge, real-world context, and advice to help you operate near helicopters and large aircraft. Don't miss this opportunity to learn from one of the industry's foremost experts and enhance your ability to avoid the "invisible beast" called wake turbulence.

Registration is not required. After viewing the program, WINGS Credit is earned immediately upon successful completion of a short quiz. The link to that quiz is on the page noted below.
