

The Schiff Show - Non-Towered Airports - No Call No Chance

In this edition of THE SCHIFF SHOW, we'll analyze the notorious Quincy intersecting runway collision—not to dwell on tragedy, but to identify clear, practical habits you can apply on your very next flight. Through compelling storytelling, simple visuals, and interactive scenarios, you'll see exactly how experienced, professional crews operating in VMC at a quiet Midwestern airport ended up in the worst-case scenario—and how you can avoid creating a similar situation.

You'll work through “freeze-frame” scenarios from the Quincy event, vote in live polls, and help create a short “Quincy Prevention Checklist” right during the session. Every attendee will leave with ready-to-use handouts: a CTAF phraseology card, a one-minute passenger briefing script, and a concise checklist you can brief and debrief on your very next non-towered operation.
