

OST - Twelve Habits that Keep Us Out of the Statistics

Aviators will recognize familiar safety themes. Maintainers will see clear parallels to the FAA's Dirty Dozen. Controllers, UAS operators, and flight-line personnel will recognize the same human traps under different operational pressures.

Presented in a checklist-style format, this episode helps aviators self-assess and make small changes that pay off over an entire career. Aviation maintenance technicians (AMT's) will see especially direct alignment with the FAA's Dirty Dozen human factors framework.
