

Takeoffs and Landings (Including Night Operations)

This ground school session will give the fundamental knowledge of the different types of takeoffs and landings. You will learn how to takeoff in every condition you might face, including night operations. Have you ever wanted to land or takeoff from a small grass strip? Have you ever wanted to land on a tiny piece of a runway? Then this class is for you. This is a wonderful refresher for pilots of all ages. These classes are the perfect way to learn in a fun and stress-free environment. Class starts at 7pm and is a wonderful opportunity to learn or review for all pilots.

Directions: Air Associates Main Hangar 3, east side of the Johnson County Executive Airport.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area
Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants.
