

Rusty Pilot Course

Looking to get back into flying? This course is designed to bring rusty pilots who have been away from flying for at least four years back up to speed. We'll review changes to regulations, cockpit weather, airspace, airplane systems, aerodynamics, cockpit resource management (CRM) and aeronautical decision making.

Directions: Stuart Aviation, LLC is located in the Automobile Dealers Association of Greater Kansas City (ADAKC) office building. From 112th Street look for the ADAKC sign in front of the building. Parking is available at the rear (south side) of the building.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
