

FAASTeam presents:

Aviation Weather - Icing

The Aviation Weather Seminar series continues with Icing. This event focuses on types of icing, where it's likely to be encountered, and the hazards of flying in it. Participants will be given a 30 minute presentation focused on identifying the potential for icing and a tutorial of the weather products available to assist in their pre-flight weather brief. Following the presentation, participants will be given a tour of the operations area at the Aviation Weather Center and a chance to speak with our aviation weather forecasters.

Directions: From I-29 South:

Turn east at Exit 10 (NW Tiffany Springs Pkwy).
Take your first left on NW Ambassador Dr. Then...

From I-29 North:

Take Exit 10 (NW Tiffany Springs Pkwy)
Continue straight at the stoplight onto NW Ambassador Dr.
Then...

...
