

VMC Clubs - Winter Flying - Love It?

I love winter flying. With cold, clear weather, the plane climbs so much better and often the visibility is great. There can be some downsides. Let's talk about how to overcome some of the winter weather problems. Come share your experiences.

And the question of the month, a two-parter: We all know that it is important with two pilots on board to designate the PIC. But can that change enroute? And, when flying in simulated weather conditions, who is the safety pilot?

Directions: Take I-470 to Exit 9, Douglas Drive / Lee's Summit Road. Turn North. At the bottom of the hill, turn right and follow the road to the end. The hangar is on the west side of the parking lot. Lost? Call me - 816-868-7655

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
