

IMC Clubs - Mastering the Art of Instrument Navigation

This month only - new location. The Kansas City Air Traffic Control Center has agreed to open their doors (and radar room) for us to allow to see how a Center really works. We will meet at the Center at Santa Fe Road and I-35. For this event, we are limited to 20 participants, and whether you have an instrument rating or not, you will benefit from chatting with these folks. I need to submit names to Center no later than July 2, so I will need to know your interest by that time. Also, if I have more than 20 people express interest, I will allow those of you who have been strong supporters of this program in the past six months or so first priority.

Directions: We will meet at the Center at Santa Fe Road and I-35

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
