

Kansas City FSDO's FAASTeam presents:

Know Your Airspace and Remember Your Maintenance Requirements

This Safety Event will cover "Navigating into Controlled and Non-Controlled Airspace", "Summer Time Flying Tips" and the "Required Maintenance" before you Takeoff, into the "Blue Skys and Tail Winds"

Mr. Marvin Moore is an Aviation Safety Inspector for the FAA with nearly 20,000 hours of flight experience, in both Airplane and Rotorcraft and he has been involved in aviation since 1974.

Mr. Donald Halbert is an Aviation Safety Inspector for the FAA with over 30 years in Aircraft Maintenance.

These two speakers, along with Mr. Marty Cupp, an Airline Pilot and FAA Designated Pilot Examiner, have combined over 100 years experience. They should be able to answer most of your questions!

Directions: If you're going West or East on Highway 36, exit at the Chillicothe Airport exit. Look for the Fighter "F-105" on the pedestal. You can't miss it!

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
