

**FAASTeam presents:**

# **IMC Club February Briefing your arrival**

Recently, an IMC Club member asked me if I would talk about briefing an instrument arrival, and I agreed to do so. But i realized there was more. First of all, VFR pilots should also be briefing their arrival. And remembering that my flying club has as a checklist item, briefing the departure for all takeoffs, I realized that this is an important item to brief as well. And then i remembered that the FAA Part 91 has something to say about briefings.

So i think there is something here for all pilots, instrument rated or not.
