

FAASTeam KC presents:

# Checklist Basics and Introduction to Wings Program

This course will begin at 0915 after the EAA Chapter 1032's monthly meeting and breakfast. Those interested in joining EAA are welcome to attend at that time.

This course will explain why checklists should be dynamic documents, always ready to be improved or expanded. It will discuss the creation or revision of checklists for normal operations, abnormal operations, and emergency procedures. It will also show how the process of creating or revising checklists will increase better understanding of the airplane's systems and operation.

The course consists of four learning modules, a downloads module, and a quiz.

**Directions:** 3 Miles West of Warrensburg MO just off Highway 50 at Skyhaven Airports Hangar #3. Call 660-543-4921 for help from airport staff or coordination for fuel and services if flying in.

Prior to attending a safety seminar, please review and abide by current CDC, State and Local health guidelines.
