

Flight Instructors - Are You the Best?

For you newer instructors, and those working to become a CFI - Would you like to know some of the tricks of the more experienced teachers?

For you seasoned instructors - What have you learned about molding better pilots over the years of your career?

Come spend a Saturday morning talking to other CFIs. Here are some of the topics on the table:

Landings – all dead stick, or airline type
approaches?

Stalls, slow flight commercial maneuvers: why
do we do these? – just for a checkride?

More than the FAA requires – Do you have your
students:

Flight into KMCI?

Land on grass runways?

Practice night solo landings

Perform self-service refueling?

Perform a blindfold cockpit check?

Do you (should you) teach ForeFlight?

Are all of the pilots you touch in the FAA Wings
Program? Should they be?

If you are a free-lance instructor, how do
students find you?

What do you want to talk about? Drop a note to
thehopeschris@gmail.com and we will get it on
the agenda.

From I-470 Exit 9 - Travel north on Douglas to bottom of the hill -
Turn right and follow road to the end. The Larry Young Hangar is on
the west side of the parking lot, next to the Cessna on a Post.
