

CFI/ Pilot Seminar:

Weather Weaknesses (*and a free lunch at 1200*)

**1300 Sunday,
March 10
KCOU, Hangar 120**

Meet the Examiners

Designated Pilot Examiners in Central and Southern Missouri are seeing the same weaknesses in many check rides: Applicants don't have the knowledge of weather and weather resources to keep them safe.

The core of this problem lies with how CFIs are preparing their students.

This session will reveal these weak areas and provide guidance for improvement.

*** To register for the free lunch and seminar email: Bill@ColumbiaJet.aero**

At 12:00 pm, hotdogs, chips, and drinks provided by the Columbia Jet Center at no cost.

CFIs and pilots of all stripes are welcome to attend.

Panelists:

- ***David Bradley, DPE, Boonville, Missouri***
- ***Martin Cupp, DPE, Brookfield, Missouri***
- ***Brian Morgan, DPE, Springfield, Missouri***

Special Presentation:

- ***Dr. William Kinney, AME, Columbia, Missouri***

Introduction by:

- ***Marvin Moore, FAAS Team Manager, KCMO***
