

## Spring Weather Warm Up

Will Review a case scenario that presents the pilot with several options to deal with warmer season weather issues. The class will need to use airmanship (defined as the precise harmony of technical skill, judgment, and flight discipline) to mitigate the risks and build a plan that enable them to safely and successfully compete the flight.

Additionally, we will review some previously discussed key items... such as personal contracts, spring/summer weather planning and operating techniques and procedures, and provide a brief intro to a powerful weather planning tool , the Skew-T

2 Miles East of Bolivar look for Airport Sign on the South side of 32 HWY follow access Road to Bolivar FBO
