

Them Pesky Birds

You take off on a nice calm day for a simple short flight to get some breakfast at your favorite spot. As you climb you hear a loud “thunk” and see feathers flying, Now what? How can we prevent a Bird strike? What can we do to keep them “Pesky Birds” from building condo’s in our planes? Come join us for a discussion on the Topic.

We meet at the Chapter 91 EAA hangar at the Lee's Summit Airport. Driving directions - take I-470 to Exit 9, Douglas Drive / Lee's Summit Drive, and turn north. At the bottom of the hill, turn right and follow the road to the end. The Larry Young Eagle hangar is on the west side of the parking lot next to the Cessna on a Post.

A message from the National FAASTeam Manager
