

## The National Air Space System

Low Clouds small runway, slick airplane that sounds like an NTSB report waiting to happen. Then again you have the skill, the fuel, and the time to make a well executed attempt with no pressure to make it all work out. And you have several back up choices. Stick with the plane don't bail out now. As typical, to this topic I will add several expansions and thoughts to create what should be a great conversation.

East of Bolivar 2 miles on Hwy 32 look for airport sign go South on Airport Road to FBO
